

3 YEAR CERTIFICATION & REFRESHER CLASSES

SPONSORED BY:

AK-CESCL (Alaska Erosion and Sediment Control Lead) is a training and certification program to enhance compliance with the Alaska Department of Environmental Conservation Construction General Permit for storm water discharges. This two-day course includes the erosion and sedimentation processes, the regulatory requirements, storm water pollution prevention plans, best management practices, inspection, record keeping and cold climate challenges. To become certified, an individual must attend the entire course and pass a written exam. The certification is valid for three years.

REFRESHER - A one-day, eight-hour course to satisfy the Alaska Certified Erosion Sediment Control Lead (AK-CESCL) renewal requirements. To be eligible to take this training, you must have a current AK-CESCL certification number and taken the two-day (16-hour) class or Refresher class within the last three years.

CLASS INSTRUCTOR: Shawn Trasky

CLASS START TIMES: 845am - Virtual Zoom class
